

long-term thinking with technologies

**a panel featuring George Dyson
Wednesday, Dec. 5th, 9:30am (HHB 110)**

**with Barbara Bordalejo, Alexandrine Boudreault-Fournier,
Jeffrey Foss, David Leach, Jentery Sayers, and Victoria Wyatt**

In our so-called digital age, engagements with technologies are typically associated with speed, immediacy, and convenience. But how do we think about technologies in the long term? With this question in mind, this event brings together a group of scholars (including famed science historian, George Dyson) to explore the critical nature of speculation and long-term thinking in our current moment.
