"How to Data Model an Object"
- Jana Millar Usiskin, UVic Dept. of English

How are objects expressed as data? We'll use the Dublin Core Metadata Initiative (DCMI) to explore how we might describe objects for discovery online. Participants are encouraged to bring a familiar, physical object they want to model.

Thursday, January 24th | 3-4 pm | Maker Lab (TEF 243)

register: maker@uvic.ca
open to eight participants
